Future Star Program is mainly for children six to ten years with the emphasis on developing a sound skiing and NASTAR racing technique. The morning and afternoon clinics will be fun oriented and expose a good camaraderie among the kids. The different skill level classes will work on all aspects of skiing, mountain cruising and recreational racing.

Ski Team Program is tailored for the skilled and aggressive juniors, starting at age of nine and older, who desire more extensive gate training, technical skiing drills and traveling to different ski resorts to compete in SARA slalom and giant slalom races.

SARA ski races will count for a ski team racer as a session. In other words, if a racer will not participate in a SARA race; there is no ski session available at Bryce Resort at that time.
